Insights

- **Risk Concentration:** 36.2% of total credit (Ksh 2.37M) is completely locked in the High-Risk bucket, indicating severe payment stagnation.
- **Aging Velocity:** Delinquent debt dominates the portfolio, with Ksh 2.4M already blowing past the critical 60+ Days overdue mark.

Recommendations

- **Target Top Exposure:** Prioritize direct, high-touch collection efforts on **Customer 1** and **Customer 14**, as they lead your top overdue clients list.
- **Tighten Credit Windows:** Implement automated n8n
